Golf Association Shows Tremendous Growth During Past Year, With Sixty-three New Clubs Added.

chicago, Jan. 15.—There was at least one saving grace about the economic depression of the year past—it certainly did give the overworked business man time to catch up on his golf.

The United States Golf Association is completing its annual meet-

ing here and the executive committee report reveals that sixty-three new golf clubs were added to the magic association circle during the

This is a whale of a report. The nearest approach to this record in any other year was seventeen. There are now 523 golf clubs, active and allied, in the association, and the grand old game is growing in popularity by such unprecedented leaps that it is little wonder that the meeting here is showing enthusiasm and predictions are made that 1922 is going to set all records for golf interest.

Already the association leaders are looking forward to the national amateur at Brookline, Mass. next September and to the national open at the Skokie Club here in This is a whale of a report. The

FALL RIVER, Mass., Jan. 15.—
National Secretary Thomas W. Cahill, of New York, tonight, following a meeting of the national challenge cup competition committee of
the United States Soccer Football
Association here, announced the reline tournament gets down to brass tacks and on the strength of St. Louis results these predictions are more than talk.

Strong Western Delegation.

There will be Lee Steil and Bon Stein, of Seattle: who came through in great style last year; Dr. O. F. Willing, Portland, Ore, who succumbed only after a stirring match with Guilford: George Von Elm, Salt Lake City; who carries some mean clubs in his bag; and Jimmy Manion, St. Louis, who was put out by Wee Willie Hunter, Rritish champion, after a tough C., Brooklyn, in all probability on

Then there will be Harrison R. Johnson, St. Paul, who Guilford beat one up after a hammer-and-tongs battle. In the opinion of seasoned authorities, this same Johnson is going to be champion some day

There are names that were un known to championship golf a year ago, but they are going to be as well known, the Western golfers tell you, as Chick Evans, Francis Ouimet, Bobby Jones, or Bob Gard-

Entries to Be Limited.

The idea of this is to limit the number of entries and to get away quicker to big time golf. There is no telling that a player who has shot a 75 on his home course is not a championship possibility. He arrives at the tournament with all the assurance of a Jock Hutchison, shoots 90 in the qualifying round shoots 90 in the qualifying round and unnecessarily clutters up the landscape. There was even a pre-liminary qualifying round at St. liminary qualifying round at St. louis, but this, cutting the situation second sufficiently. 'Hutch' Won't Compete In British Qpen Event

NEW YORK, Jan. 15.—Jock Hutchison, though he has made no formal announcement, admitted semiprivately a few days ago that he had no expectation of going abroad next spring to defend his British open title. It is to his credit that he never, even when he flushed with victory, promised to return, Almost from the first he doubted about another trip in 1922. Andrew Kirkaldy, in his new book, does not have much to say about Jock beyond remarking that he plays wondelfully when forced. Andrew's few remarks, however, as often, are straight to the point. He observes "A champion gaining a title through the holing of a one, scarcely appealed." And again "He waved the American flag about too much. You know, you wouldn't fancy an American who had just become a British subject fancy an American who had just become a British subject flaunting the fact at an Ameri-can championship."
